

Vaccinology in the Tropics: Vaccines in a Globalized World
Vacunología en los Trópicos: Vacunas En un Mundo Globalizado
Tercer Congreso / Third International Conference
Intercontinental Miramar Panama Hotel, Panama, Central America

SIMULTANEOUS TRANSLATION – ENGLISH/SPANISH
TRADUCCIÓN SIMULTÁNEA – INGLÉS/ESPAÑOL

Dates of Conference: January 20-22, 2016 / Enero 20 al 22 del 2016

Course Directors:

- Xavier Sáez-Llorens, Pediatrics Infectious Disease, Panama
- Ricardo Izurrieta, Tropical Medicine, Florida
- Arlene Calvo, Public Health Research, Panama

PROPOSED PROGRAM

WEDNESDAY JANUARY 20TH, 2016:

Facilitator: Arlene Calvo, PhD

- 7:00pm - Opening Reception/Cocktail- Conference Kick-off
SPONSORED EVENT/ EVENTO PATROCINADO
- 7:10pm Welcome Remarks: USF Health Representative
Dr. Charles Lockwood
- 7:20pm Building a Culture of Research: Contributions of Vaccine
Research to Immunization Programs
Dr. Xavier Sáez-Llorens
- 7:35pm Invited Local Authorities (Ministry of Health, Gorgas
Memorial Institute, National Secretariat of Science, Technology,
and Innovation)
- 7:40pm Recognition: National Immunization Program Coordinators.
Mention of Latin American researchers that have contributed to vaccine research. /
Reconocimiento a coordinadoras del Programa Ampliado de Inmunizaciones.
Contribución a la investigación clínica de vacunas.
- 7:50pm Panamanian National Folkloric Dance Show
- 8:00pm POSTER SESSION

Distinguished Guests:

- USF HEALTH Vice-President and Dean School of Medicine, Dr. Charles Lockwood
- USF Dean of College of Public Health, Dr. Donna Petersen
- Minister of Health of Panama, Dr. Javier Terrientes
- National Secretary of Science, Technology, and Innovation. Dr. Jorge Motta
- General Director of the Gorgas Memorial Institute, Dr. Nestor Sosa
- Coordinator of the Panamanian National Immunization Program, Itzel de Hewitt, RN

THURSDAY JANUARY 21, 2016: INTERNATIONAL TRENDS /
TENDENCIAS INTERNACIONALES
General Sessions and Panel Discussions / Charlas Magistrales y Paneles

Time / Horario	Topic / Tema	Speaker / Conferencista
7:30-8:30am	On-site Registration / Inscripción	USF Panama Office
8:30-9:00	New and Innovative Strategies in Vaccination Programs	Facilitator: Xavier Sáez-Llorens Speaker: David Prado
9:00-9:40	Comparing International Vaccination Programs: the US Vs. Latin America Delivering Vaccination Programs in Developing Countries Regional Vaccine Coverage	Facilitator: Arlene Calvo Speakers: PAHO/OPS representative Natalie El Omeri, CDC
9:40-10:00	COFFEE-BREAK POSTER SESSION	SPONSORED EVENT/EVENTO PATROCINADO
10:00-10:30	Myths and Realities of Vaccines: The Antivaxer Debate / Mitos y Realidades de la Vacunación	Facilitator: Xavier Sáez-Llorens Panel: David Prado Q&A
10:30-11:15	Travel Medicine Immunization Practices in the Tropics	Facilitator: Ricardo Izurieta, USF, Florida Speakers: Daniel Stambouliau Germán Henostroza, University of Alabama Birmingham
11:15-12:00	Vaccine Innovations in Adults: Infectious and Chronic Diseases	Facilitator: Xavier Sáez-Llorens Panel: Daniel Stambouliau Germán Henostroza, UAB Néstor Sosa, Instituto Conmemorativo Gorgas, Panamá Daniel Stambouliau Juan Carlos Alcedo, Instituto Oncológico Nacional
12:00-13:30	LUNCH / ALMUERZO SYMPOSIUM / SIMPOSIO	SPONSORED EVENT/ EVENTO PATROCINADO (MSD)
13:30-14:00	New Innovative Vaccines in the Tropics: Yellow Fever, West Nile Virus, Dengue, Hantavirus, Leishmaniasis, Flavivirus, Clostridium	Facilitator: Néstor Sosa Speaker: Ricardo Izurieta, USF, Florida
14:00-14:40	Viral gastroenteritis: from rotavirus to norovirus / Gastroenteritis virales: del rotavirus al norovirus	Facilitator: Arturo Rebolón Speaker: Miguel O'Ryan, Chile
14:40-15:00	COFFEE-BREAK POSTER SESSION	SPONSORED EVENT/ EVENTO PATROCINADO
15:00-15:20	Helicobacter pylori durante la niñez: nos debemos preocupar?	Facilitator: Arturo Rebolón Speaker: Miguel O'Ryan, Chile

15:20-15:50	Syncytial Respiratory Virus: A revolution in vaccines! / Virus respiratorio sincitial: Revolución de VRS en vacunas!	Facilitator: Dora Estripeaut, Sociedad de Infectología de Panamá Speaker: Octavio Ramilo, USA
15:50-16:10	Vaccine research: Creating a culture of research and vaccine innovation Involving Nurses in Vaccine Research	Facilitator: Xavier Sáez-Llorens Speakers: Arlene Calvo, USF Constance Visovsky, USF
16:10-16:45	Diseases Affecting our Populations: Meningococcal Diseases and Vaccines Vacunas contra el Meningococo	Facilitator: Arlene Calvo Panel: Jorge Lujan-Zilberman, USA Miguel O'Ryan, Chile
16:45-17:00	Summary and Closing Remarks for the First Day / Resumen del Primer Día	Xavier Sáez-Llorens

FRIDAY JANUARY 22, 2016: DISEASE SPECIFIC VACCINE INNOVATIONS

General Sessions and Panel Discussions / Charlas Magistrales y Paneles

Time/Horario	Topic/Tema	Speaker / Conferencista
8:30-9:00	Preparing for a Second Round: Pandemic Influenza Response and Vaccines Influenza Cobertura y carga de enfermedad	Facilitator: Rosalba González, Instituto Conmemorativo Gorgas Speaker: Neely Kaydos-Daniels, Centers for Disease Control (CDC) Representatives
9:00-9:30	Epidemics and populations: what has affected us upon identifying Ebola / Epidemias y el ser humano a propósito del Ebola	Facilitator: Dora Estripeaut, Sociedad de Infectología de Panamá Speaker: Miguel O’Ryan
9:30-10:00	Diseases Affecting our Populations: Pneumococcal Vaccines	Facilitator: Xavier Sáez-Llorens, Panama Speaker: Jorge Lujan-Zilbermann
10:00-10:20	Q&A Session	Panel
10:20-10:40	COFFEE-BREAK POSTER SESSION	SPONSORED EVENT
10:40-11:40	Malaria Research in the Tropics: A Continuing Evolution Estrategias para la erradicación del Plasmodium vivax: el nuevo reto!	Facilitator: Nicanor Obaldía Speakers: John Adams, USF, USA
11:40-12:20	Polio today and tomorrow / Erradicación de polio, que nos hace falta?	Facilitator: José Jimeno Speakers: Miguel O’Ryan, Chile
12:20-14:00	LUNCH/ALMUERZO SYMPOSIUM / SIMPOSIO	SPONSORED SCIENTIFIC Patrocinado PFIZER
14:00-14:30 Logistics/ Logística	Use of Technology in Vaccine Research	Facilitator: Arlene Calvo Speakers: José Jimeno
14:30-15:00 Logistics/ Logística	Innovative cold chain processes / Procesos inovadores de cadena de frío	National Immunization Program /Programa Ampliado de Inmunizaciones Ing. Iván Medina, Coordinador Nacional de la Cadena de Frío, Ministerio de Salud, Panamá
15:00-15:20	COFFEE BREAK/RECESO POSTER SESSION	SPONSORED EVENT
15:20-16:15	Human Papillomavirus in Male	Facilitator: Arlene Calvo

STI Related Vaccines	Populations	Speaker: Jorge Lujan-Zilbermann, University of South Florida
16:15-17:00	Sexually-Transmitted Infections: gonorrhea, herpes, chlamydia, HIV/AIDS	Facilitator: Juan Miguel Pascale Speakers: Germán Henostroza, UAB NIH HIV Vaccine research representative
17:00-17:20	Vaccines: Have we measured up to the MDGs? / Vacunas: Hemos logrado los ODMs? Summary and Closing Remarks- **Conference Adjourns**	Donna Petersen Ricardo Izurieta Xavier Sáez-Lorens Arlene Calvo

Vaccinology in The Tropics

3rd International Conference

January 20-22, 2016

Hotel Intercontinental Miramar

Balboa Ave., Panama City, Panama

Bilingual Conference

#VaccinologyPan

Call for Abstracts

Deadline: November 12, 2015

Midnight

English

Vaccinology in the Tropics

The upcoming Vaccinology in the Tropics third international conference to be held January 20-22, 2016 in Panama City, Panama, is accepting abstracts for scientific posters. The meeting is a dynamic forum for the exchange of the latest scientific, clinical, and practical advances in vaccine research and development, tropical medicine, immunization programs, and global health.

The abstracts provide the foundation for the scientific sessions and poster sessions, and serve as the cornerstone of the meeting's scientific content.

Submission guidelines

Deadline: November 12, 2015. Midnight.

Abstracts must be submitted using the online [Abstract Submission Form](http://goo.gl/forms/4NeD4tjINq)

(<http://goo.gl/forms/4NeD4tjINq>)

1. Content

Abstracts should contain data and/or concepts not previously presented or published.

2. Poster presentations of the abstracts

The posters will be displayed at a special showroom for the scientific posters. The best two posters will be selected for oral presentations. Due to the large number of submissions, the selection process for oral presentations is especially competitive.

Topics include: public health, global health, clinical, scientific research, and laboratory-based science related to vaccines.

Poster size is 4 feet wide x 3 feet tall are displayed throughout the conference at the poster sessions. Poster presenters are requested to be available to informally elaborate and discuss the poster with interested viewers. The presenters are required to register for the conference.

3. Format

Abstracts may be submitted and presented in Spanish or English. The title, authors, author affiliations, and body of the abstract should be entered in standard sentence case, not all upper case letters. The character limit for the abstract (not including title, authors, etc.) is 250 words.

Español

Vaccinology in the Tropics

Está aceptando resúmenes científicos para presentar en la 3ra conferencia internacional que se realizará en la Ciudad de Panamá, Panamá los días 20-22 de enero del 2016. La conferencia internacional es un foro dinámico para el intercambio de los últimos avances científicos, clínicos y de salud pública en el desarrollo e investigación de vacunas, medicina tropical y Salud Global.

Estos resúmenes son la base para las presentaciones y sesiones de pósters, y sirven como la base del contenido científico de la conferencia.

Instrucciones

Fecha límite: 12 de Noviembre, 2015. Medianoche

Los resúmenes deben ser sometidos usando el [Formulario de Entrega de Resúmenes](http://goo.gl/forms/4NeD4tjINq) en línea (<http://goo.gl/forms/4NeD4tjINq>)

1. Contenido

Los resúmenes científicos deben contener datos o conceptos que no hayan sido presentados o publicados previamente.

2. Presentación de Póster Científico

Los pósteres estarán exhibidos en una ubicación especial a lo largo del congreso. Los dos mejores pósteres serán seleccionados para presentación oral. Debido al gran número de propuestas, el proceso de selección de las presentaciones orales es altamente competitivo.

Se aceptan temas de salud pública, salud global, clínicos, investigación científica y laboratorio relacionado a vacunas.

Los pósteres de tamaño: 4 pies alto, 3 pies de ancho, se presentarán a lo largo del congreso en una sala específica para la presentación de pósteres. Los autores deben estar disponibles junto a sus posters para presentar el contenido de sus estudios y discutir el poster los visitantes interesados. El presentador del póster debe estar inscrito en el congreso.

3. Formato

Los resúmenes pueden enviarse en español o inglés. El título, los autores, afiliación de los autores deben ser sometidos en formato de oración (evitar textos en mayúsculas completas).

El límite de caracteres del contenido del resumen es 250 palabras (no incluye título, autores, etc.).
